SUMMARY

As a dedicated IT student pursuing a Bachelor's degree, I am passionate about web development, particularly with the Django framework. I have successfully completed several projects, showcasing my ability to create dynamic and efficient web applications. Eager to leverage my skills and continue learning in a professional setting.

EDUCATION

SEE
Balmeeki Higher Secondary School / Pathari / February, 2006 - August, 2019

SLC
Panchyat Higher Secondary School / Pathari / June, 2019 - July, 2021

BIT
Texas College of Management and IT / Kathmandu / April, 2022 - Present

PROJECTS INVOLVED

Office Employee Management System
Developed an Office Employment System using HTML, CSS, and Django, featuring full CRUD operations and Search Filter Operations.

https://github.com/HTMLCSSProDjangoInitiate/office_emp_management_system

Ebazzar
Created an Ebazzar website using HTML and CSS, providing a visually appealing and user-friendly platform for online shopping. This project highlights skills in frontend web development.

https://github.com/HTMLCSSProDjangoInitiate/Ebazzar

Blog_Post
Developed a Blog Post application using HTML, CSS, and Django. Users can create, upload, and delete and search posts from their profiles.

https://github.com/HTMLCSSProDjangoInitiate/Blog_Post

Recipe Book
Developed a Recipe Book application using HTML, CSS, and Django. Users can create, display, and store recipes with authentication and CRUD operations.

https://github.com/HTMLCSSProDjangoInitiate/recipebook

Company and Employee Management APIs
Created a set of APIs using Django Rest Framework to manage company and employee information, including details like name, location, about, type, and active status for companies, and name, email, address, phone, about, position, and company for employees.
